**Care Instructions:** Light brushing is recommended to prevent dust and soil buildup.

**Product Description:** Listen closely: With Audimute® sound panels you'll love what you hear. Treat your space in style with Audimute fabric sound panels. Audimute fabric sound panels combine acoustic effectiveness with design, absorbing echoes and reverberation while enhancing the overall decor of homes, apartments, studios, offices, and more. Audimute's decorative sound panels are made from high-quality interior and exterior materials. The interior sound absorption core of all Audimute acoustic panels are made from our signature eco-C-tex blend of recycled cotton and cellulose fibers. This environmentally friendly mix is the greenest sound absorption material in today's marketplace and the safest alternative to traditional fiberglass fillers! This eco-C-tex™ center is wrapped by hand in your choice of fabrics from our standard, or bleach-cleanable lines of acoustical fabrics. Add style and acoustic sound solutions in any space. Non-Toxic, Non-Carcinogenic, No Fiberglass.
